## Level Up: Emerging Technology

Describe three emerging technologies that might be used in a library. Examples can include new eGovernment portals, technology programs and community technology centers as well as new forms of social media:

1.

2.

3.

Discuss the pros and cons of each and how it might be used by or benefit library users and library staff:

## Guiding Ohio Online

How do you know patrons will use this technology? What indicators will tell you if it's been a success?
