

Guiding Ohio Online

Level Up: Social Media

Access three library social media feeds from any one service (facebook pages, twitter, Instagram feeds, etc.). Describe these pages and evaluate their use and effectiveness.

Compare and contrast: what works well and what doesn't?

Next, access three library-related blogs and post comments on a topic on each blog. Was it difficult? Why or why not?

What policies (if any) did the libraries have in place about what could be posted?

Did the library respond to you? Was it in a timely manner?
