# VISUALIZING FUNDING FOR LIBRARIES

#fundlibraries

**Visualize Funding for Libraries**  
is a data tool and capacity-building training  
to help libraries and their supporters thrive.

## DATA TOOL

- Understand who is funding what and where
- Analyze funder and library networks
- Find opportunities for funding
- Discover potential collaborators

## TRAINING

- Become a better grantseeker through webinars, in-person events, and an eLearning course.

Check it out at  
[libraries.foundationcenter.org](https://libraries.foundationcenter.org)

## TO TRACK AND FIND FUNDING FOR LIBRARIES

The data tool is powerful, but only if library supporters have the know-how to use it. Foundation Center, along with our training partners, wants to help professionalize fundraising for libraries.

### Types of Training

WEBINARS

IN-PERSON

E-LEARNING

Welcome!

[Learn how to use the map](#)

Libraries are overlooked and underfunded organizations that play a critical role in today's society by providing free programs, resources, and services to millions of adults, children, and youth everyday around the United States. But many libraries lack the resources and support to innovate and build upon the ways they can meet their communities' needs.

With support from the John S. and James L. Knight Foundation, Visualizing Funding for Libraries' Data Tool is developed by Foundation Center to help libraries and their supporters find funding opportunities, increase understanding of funding sources, and track funding trends.

#### Get Started:

- Explore the funding data through the **Map**, **List**, **Charts**, **Pathways**, or **Constellation** features.
- See a guided tour of **Map**, **Pathways**, and **Constellations** by clicking on the "Learn how to use the map" button in the upper right hand corner of this pop-up box or in the "About" link.

PROFILE

GRANTS

## Mission

The foundation's grantmaking philosophy is to build, strengthen and sustain institutions and their core capacities, rather than be a source for narrowly defined projects. As such, it develops thoughtful, long-term collaborations with grant recipients and invests sufficient funds for an extended period to accomplish the purpose at hand and achieve meaningful results. Institutions and programs receiving support are often leaders in fields of foundation activity, but they may also be promising newcomers, or in a position to demonstrate new ways of overcoming obstacles to achieve program goals. The foundation concentrates most of its grantmaking in a few areas: higher education, art history, conservation, museums, performing arts, scholarly communications and information technology.

## Background

Trust established in 1940 in DE as Avalon Foundation; incorporated in 1954 in NY; merged with Old Dominion Foundation and renamed The Andrew W. Mellon Foundation in 1969 - Founded in the name of the late Andrew W. Mellon (1855-1937) by his children. His daughter Ailsa Mellon Bruce established the *Avalon* Foundation in 1940 and his son Paul Mellon established The Old Dominion Foundation in 1941. The two foundations consolidated, resulting in The Andrew W. Mellon Foundation. Mellon was a banking magnate who financed several industrial companies including Aluminum Company of America (ALCOA) and Carborundum Company. He served as Secretary of the United States Treasury from 1921 through 1932. During his life, Mellon gave away nearly \$10 million. Much of it went to educational and charitable institutions in his native Pittsburgh, but his most famous gift was the money and the pictures that were used to establish the National Gallery of Art in Washington, DC.
