Online Board Game Platforms
Steam

The platform is free.

Most games are NOT.

All players need to acquire the same game in order to play.

So if a paid game, everyone needs to pay.

Difficult to moderate.

Great Games! Great Interface! It’s so beautiful...
Tabletop Simulator

Cost about $20 on Steam

Amazing selection of games!
Some free some not.

SO. MANY. GAMES.

It SIMULATES the gaming table. You pick stuff up and move it around.

There is a huge learning curve with the functionality.
Tabletopia

Also a simulator.

It runs a virtual table with all the pieces and ability to move them.

Learning curve.

It’s fine. Really. Just fine.

One time I dropped a pawn and it took me an hour to pick it back up again.
Yucata.de and Boitejeux.net

Game selection ok.

Interface is antiquated.

Learning curve low.

Free.

Some great easy to teach games like Alhambra and Dixit.

My favorite game Concordia is also there.
Clones
Board Game Arena

175+ Games (new games once every two weeks or so)

Small Annual Fee for Premium.

Only one person needs to have this for everyone to play.

Voice and Text Chat.

Simple User Interface.

Variety of difficulty.
