

A photograph of the New Jersey State Library building, a long, modern structure with a light-colored, textured facade and numerous rectangular windows. In the foreground, there is a large, multi-tiered fountain with a classical design, featuring columns and a pediment. The fountain is surrounded by a green lawn and a low hedge. The sky is blue with scattered white clouds.

GAS PRICES WERE TOO HIGH.

MY LIBRARY SHOWED ME HOW TO GO GREEN.

Help us tell our story by telling us yours.

Libraries have always worked to share the stories of others, now we need your help to tell our story. We are looking for real life experiences that reflect the way libraries are transforming the lives of the people in our communities. Has the library helped you become who you are, achieve a goal, or learn something that matters in your life? Whatever your story, we want to hear it. We'll add it to our story bank and use it to help others realize how the library can transform their lives too. Visit www.solvinglifeproblems.org for more details.

How is the library transforming your life?

Solving Life's Problems
NEW JERSEY LIBRARIES

This program is sponsored by the NJ State Library and the NJ Library Association.

“It would be irresponsible to reduce and/or shutter libraries -- the lifeline for many a resident.”

“The library is the place where I learned to speak and read English and find books in my native language, Korean.”
