

Welcome!

**The webinar will begin at
2:00 Eastern/11:00 Pacific**

Audio broadcast—volume

Today's audio is streaming over your computer's speakers or headphones.

You can adjust the volume on the Audio broadcast box:

If you hear an echo or are disconnected from the audio:

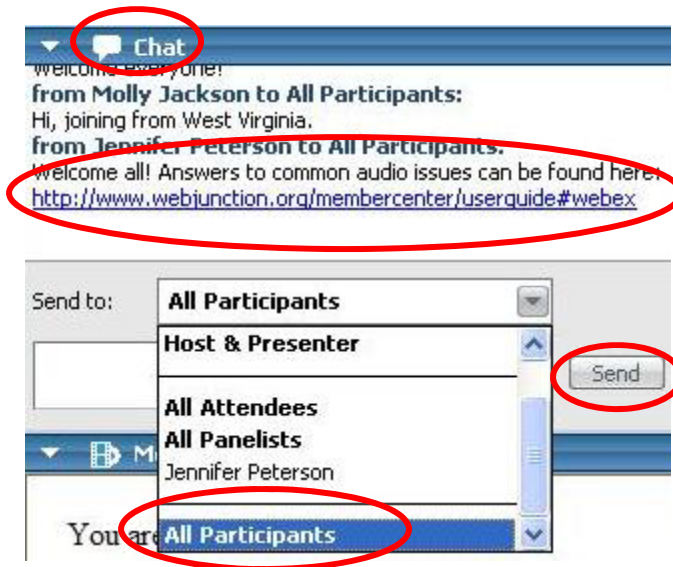

Select **Leave Audio Broadcast** or **click X** to close box(es). Then rejoin.

Chat Option

- If you have technical difficulties, please chat privately with “WJ Support.”
- Please post your questions to “All Participants.”
- Please paste to chat your links to relevant resources.

Step 1: Type in the **dialog box**.

Step 2: Select **recipient(s)** from dropdown option.

Step 3: Click “**Send**” button.

If needed, access audio by telephone

If you cannot or do not wish to listen to today's audio via your computer, please follow these steps to join by telephone.

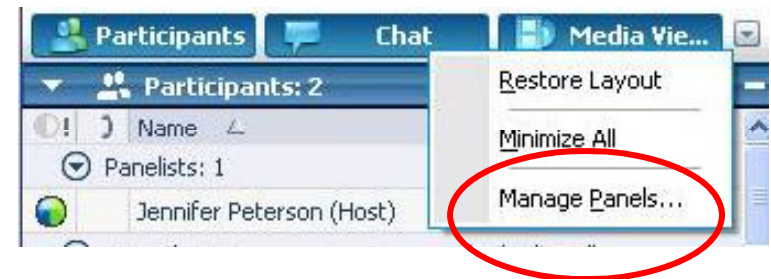

Click on **Request** under the participants list.

You will be provided with a toll-free number. Be sure to enter **#** following each of the operator's requests for **Access Code** and **Attendee ID**.

Customize your experience

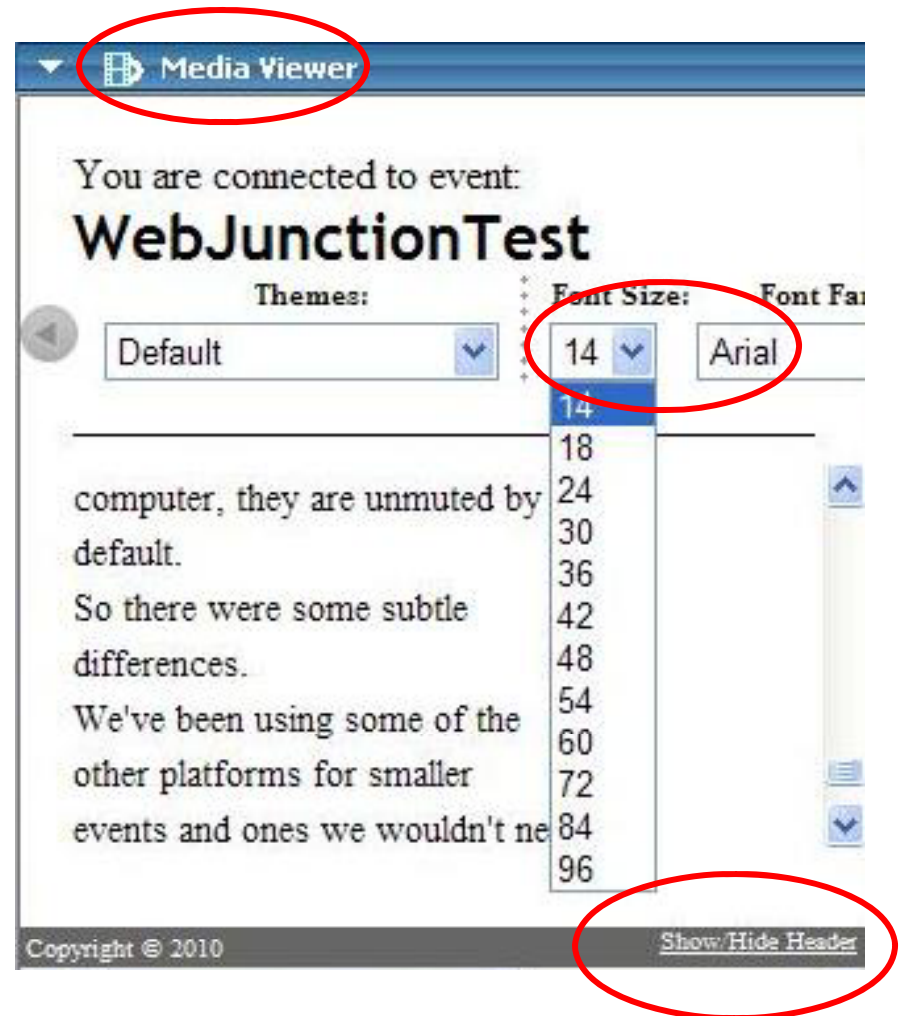

- Panels can be minimized or expanded
- Hover over edge of panels to drag and resize
- Size can be adjusted or presentation can be viewed “full screen”
- Use this menu at bottom right to return to panel view

Closed Captioning is available

- Access via the **Media Viewer** on your Panel options.
- You may adjust the **font size and type** for captions.
- Then select **Show/Hide Header** in the bottom right corner.

Remember to chat privately with
WJ Support if you need technical
assistance.

- What is digital preservation?
- Who provides this service?
- How can you do this in your library?

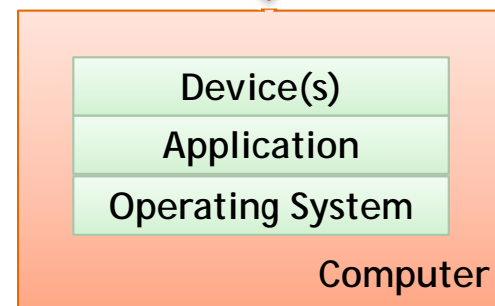

Digital preservation / changing needs

Use

Deliver

Store

Data

- How will you store & maintain these for 5, 10, 50 years?
- What is in your collection?
- When will you know to take preservation actions?
- Where have you put them?

Defining the frontier - 1994

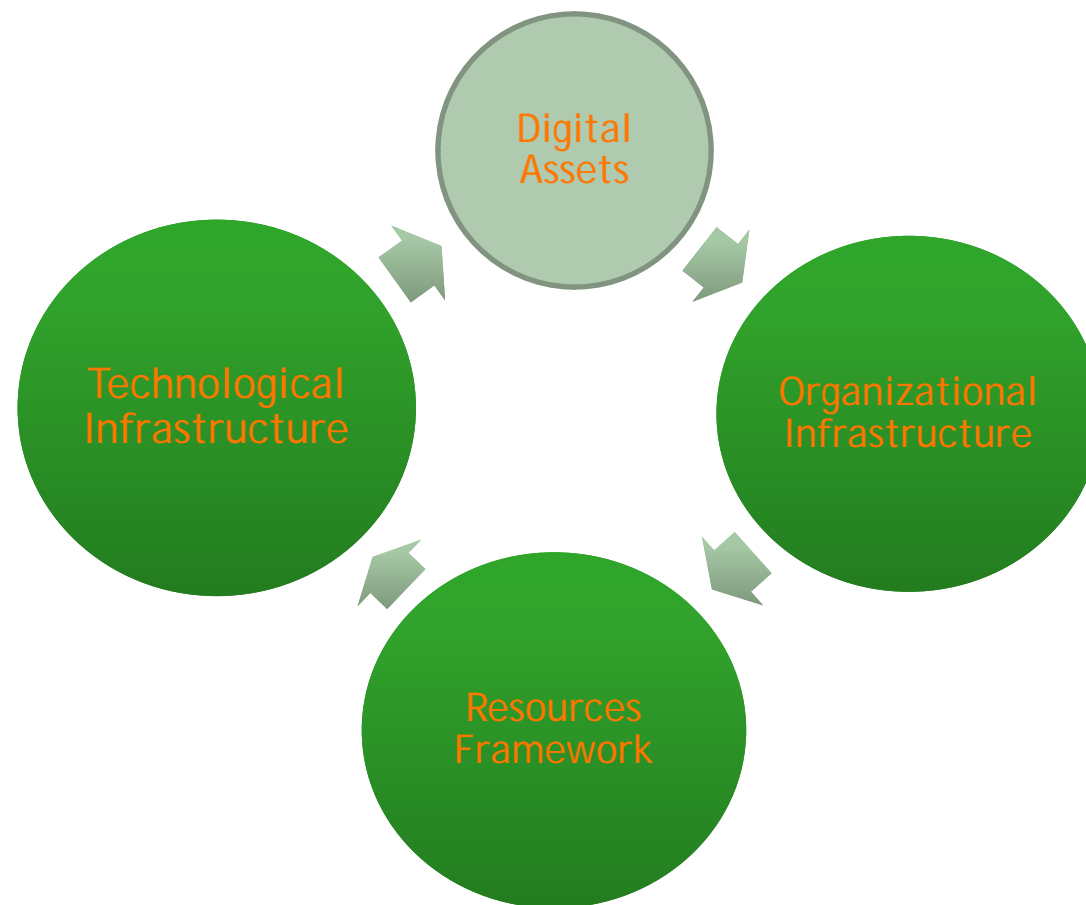

Preserving Digital Information
Report of the Task Force on Archiving of Digital Information
commissioned
by
The Commission on Preservation and Access
and
The Research Libraries Group

May 1, 1996

- Major Findings
 - Responsibility: creators, publishers, owners
 - Long-term requires deep infrastructure
 - Need organizations capable of
 - Storing
 - Migrating
 - Accessing
 - Need certification for trust
 - Need legal rights and capacity for rescue

- OAIS - our vocabulary for structure, roles, terminology (ISO 14721) ... when did you start using the term “ingest”?
- Trusted Digital Repositories (CRL implementing)
- Enabling preservation actions
 - Registries of data formats: Pronom, GDFR - now UDFR
 - Data format verification tools: JHOVE, DROID
- Metadata elements - PREMIS v2.0, April 2008

Digital Preservation Framework

Where are you applying your resources?

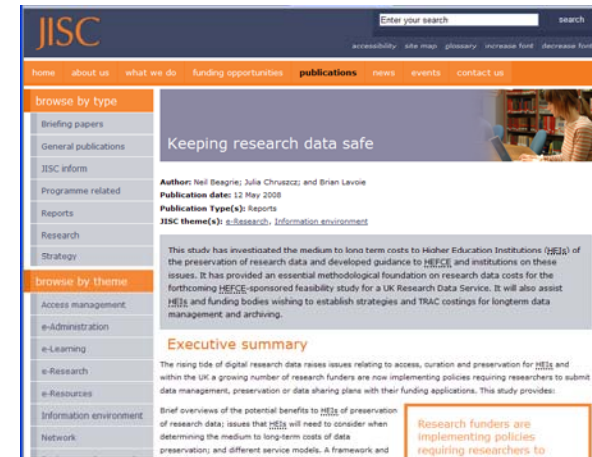

Digital Program Costs - JISC study

Estimates from UK National Data Centres

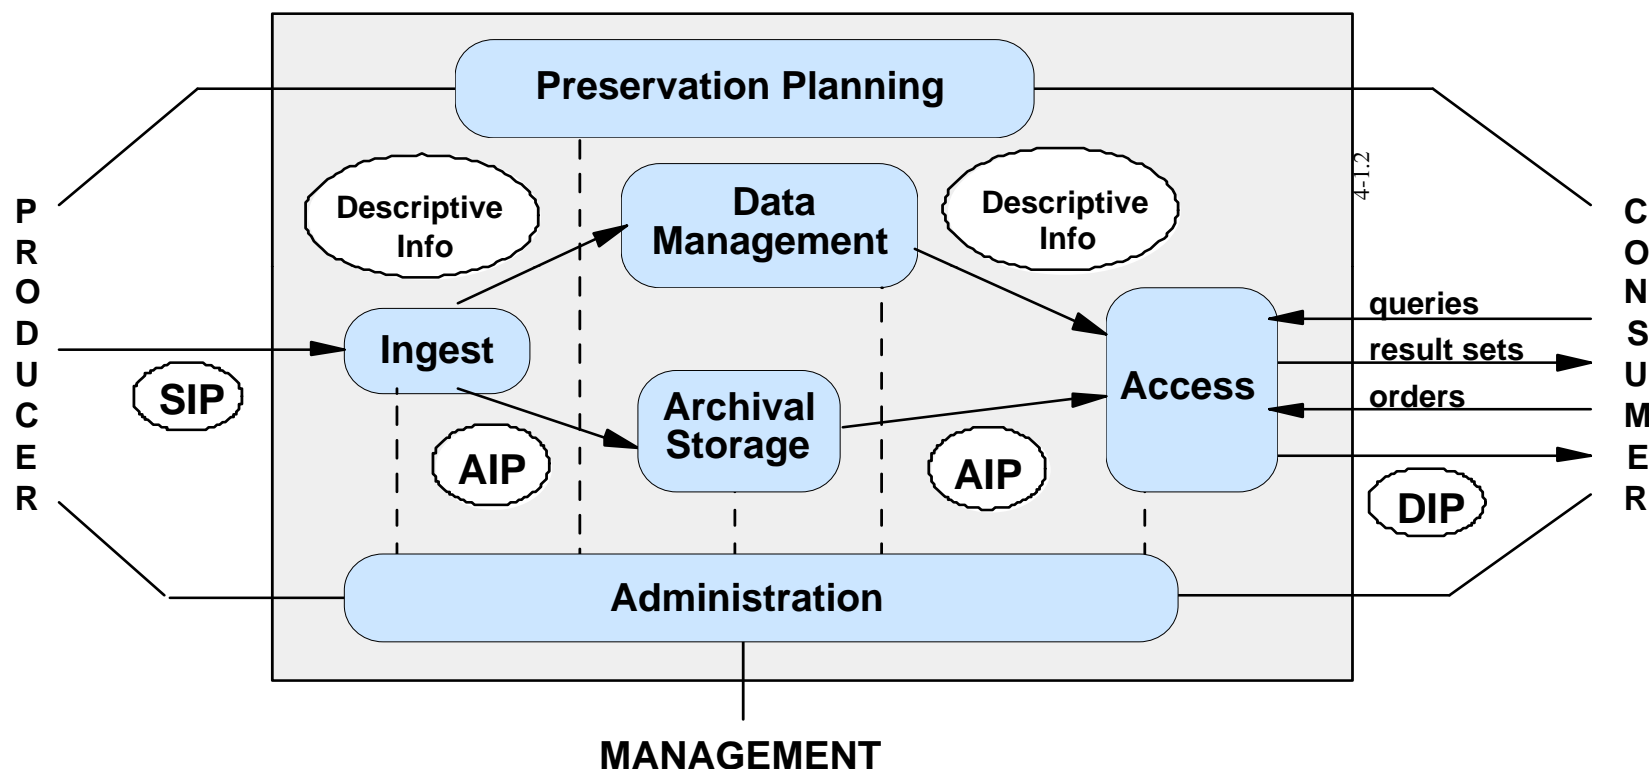

Acquisition & Ingest ~42%

Archival Storage
& Preservation ~23%

Access ~35%

OAIS Functional Model

Key concept: Designated community - who are you serving?

- National library of the Netherlands, E-Depot (journals)
- LOCKSS (journals)
- Portico (journals)
- CLOCKSS (journals)
- Hathi Trust (books)

- **DuraCloud** (software as a service)
- **Ex Libris Rosetta** (software)
- **Internet Archive** (services)
- **MetaArchive Cooperative** (LOCKSS private networks)
- **OCLC Digital Archive** (service)
- **Tessella** (software, services)
- **"Open Source"** (software)

Blue Ribbon Task Force on Sustainable Digital Preservation and Access

Preliminary lessons learned

- “Sell” outcomes
- Avoid discounting benefits
- It’s hard to separate costs
- Diversify funding
- Non-monetary incentives
- Consider many options when choosing economic model

http://brtf.sdsc.edu/biblio/BRTF_Interim_Report.pdf

Achieving Understanding

Facilitated discussions among major stakeholders

Identifying digitization efforts for access versus digitization efforts for long term preservation/access

Agreement that statewide efforts should include both

Discussion of options for both

Decision on long term preservation tool

Project Planning Document

[Add/Edit](#)

To propose a new collection to the Montana Memory Project Steering Committee please complete the Montana Memory Project - Project Planning Document. This will be reviewed by the MMP Steering Committee to evaluate and plan for your training and support needs.

Information Only Data and Collections [Add/Edit](#)

To document digitization projects not currently planned for addition to the Montana Memory Project please complete the Information Only Data and Collections. This will help the State Library track digitization projects that exist around the state and serve as a statewide registry of digital projects. This information used to evaluate opportunities for new statewide projects, support future grant Project Planning Documents and will make the State Library aware of opportunities for collaborative projects.

Please contact the [Statewide Projects Librarian](#) for questions regarding the Digitization process.

Making it possible for all to play

Partnerships between major stakeholders in Montana

Partnerships between local library and local museum/archive

Managed as a statewide project open to all

Governing committee that assists the project

Shared technical and training support

A stylized, dark teal silhouette of a mountain range is positioned in the bottom right corner of the slide, partially overlapping the text area.

Next Challenges

- ◆ Educating efforts
 - ◆ Identifying and prioritizing valuable and at risk local collections
 - ◆ Defining the scope of the Montana Memory Project
 - ◆ Expanding funding sources and partnerships
 - ◆ Increasing training and support
- 
- A stylized, layered mountain range graphic in shades of teal and blue, positioned in the bottom right corner of the slide.

A **flickr** of Hope: Harvesting Social Networking Sites with Archive-It

Digitization & Preservation Symposium August 25, 2010

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

PART 1: The Set Up - 1987

§ 125-11.7. State Library designated the official depository for all State publications.

The State Library shall be the official, complete, and permanent depository for all State publications, and shall receive five copies of all State publications in addition to the copies required for the depository system: Provided, however, the State Library shall receive only five copies of any State publication offered for sale by a State agency at a price at least high enough to recover production costs: Provided, further, the State Library, notwithstanding the definition of "State publication" contained in this Article, shall have authority to exclude from required deposit in the State Library any items or materials which it finds are not appropriate for deposit. (1987, c. 771, s. 2.)

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

PART 1: The Set Up - 1987

§ 125-11.7. State Library designated the official depository for all State publications.

The State Library shall be the official, complete, and permanent depository for all State publications, and shall receive five copies of all State publications in addition to the copies required for the depository system: Provided, however, the State Library shall receive only five copies of any State publication offered for sale by a State agency at a price at least high enough to recover production costs: Provided, further, the State Library, notwithstanding the definition of "State publication" contained in this Article, shall have authority to exclude from required deposit in the State Library any items or materials which it finds are not appropriate for deposit. (1987, c. 771, s. 2.)

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

The Set Up: 2002-2007

- 2002: The problem of digital preservation is identified
- 2004ish:
 1. Federal grants fund two Web harvesting projects
 - Web Archives Workbench* (OCLC) and based on the "Arizona Model" - LOC
 - Capturing Electronic Publications (State Library of Illinois and UIUC) – IMLS
 2. Internet Archive
 - Pilots their subscription-based Web harvesting service called "Archive-It"
- State Library and State Archives of NC joins all pilot projects
- 2007: State budget includes a line item for digital preservation program at the State Library
 - Digital Information Management Program (DIMP) is born
 - Funds participation in ongoing Archive-It service with sister division, North Carolina State Archives

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

The Set Up: 2008-2009

- 2008: Society begins to recognize digital preservation as an issue; Social networking “takes off”
 - Obama in DC; Perdue in NC
 - Interest in e-governance, Web 2.0, & social networking sites (SNS) skyrockets.
 - Outreach opportunity; communication forum
 - Documenting social change, social reaction to important events, and a cultural phenomena
- 2009: NC selects Internet Archive’s Archive-It (AI), collocates all harvests from 1996 on, begins considering social networking issues

A Long Story Made Short

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

Hold On. Two Very Loose Definitions

“Web harvesting involves using web crawling software to automatically copy and collect internet content such as website pages.”

- National Library of New Zealand

Social networking sites display your network (LinkedIn), tell you who you should network with (twitter), allow you to have conversations (facebook), or build and nurture a network (BrazenCareerist).

- From BrazenCareerist.com, “a social network for Generation Y professionals”

Are you part of the Brazen Careerist network?

Sign up today to start managing your career for the new workplace.

Click on the logo (above) to get started.

- ▶ Live the new rules for the job hunt.
- ▶ Find out why your ideas are (or should be) your resume.
- ▶ Jumpstart your personal brand.

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

What Are We Harvesting?

- 2005-2009.
 - North Carolina State Agencies and Boards & Commissions
 - Static Web pages & anything connected to a static Web page that the harvester can grab
 - Schedule varies
- 2009.
 - All of the above, plus the Governor's social networking sites
- 2010.
 - All of the above, plus all (known) North Carolina State Agency social networking sites

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

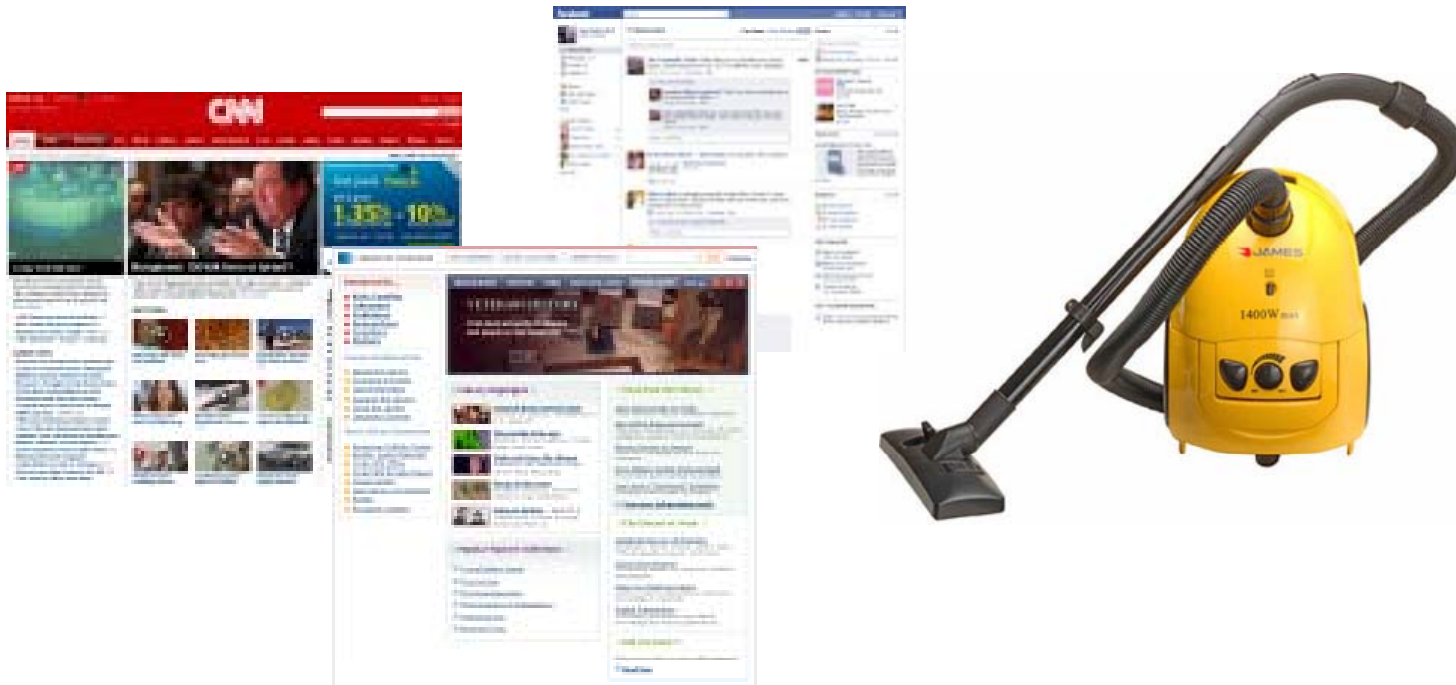

Other Options?

- Cheaper solutions, but IOHO:
 - Not as stable as AI
 - Not as tested/reviewed/open as AI
- Other solutions:
 - Web Archiving Services (WAS)
 - Same crawler as AI (Heritrix)
 - ContextMiner (social networking specific)
 - OCLC Web Harvester
- Host our own harvester/Ignore
 - Not an option

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

PART 2: How Harvesting 2.0 Works.

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

PART 2: How Harvesting 2.0 Works.

- Archive-It developed functionality based on (our) needs assessment
 - As of spring 2010, these sites are harvestable and immediately available* through our Web archive

*YouTube is currently harvested, but major aspects are not currently renderable.

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

PART 2: How Harvesting 2.0 Works.

- Trial & Error, Quality Review, Collaboration
 - AI, Department of Cultural Resources, NC Governor's Office
- Documenting detailed changes for partners

De Grazia, Victoria. "The secretarial pool at the Perugia Candy Works, 1928." *How Fascism Ruled Women: Italy, 1922-1945*. Berkeley, CA: University of California Press, 1992.

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

PART 2: How Harvesting 2.0 Works.

- AI testing/interested in testing LinkedIn, Slideshare, Vimeo, and MySpace
 - Public Record? Relevance?
- WAS partners looking at delicious
- Will continue to beta new social networking site platforms as they emerge

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

PART 3: A Tour of What Works & Doesn't

<http://digital.ncdcr.gov> ~ <http://webarchives.ncdcr.gov> ~ digital.info@ncdcr.gov
State Library of North Carolina ~ Digital Information Management Program

- Comments & photostreams are harvested and presented easily
 - The rendered page looks & acts remarkably similarly to the original
- How big is it?
 - The larger “seeds,” such as the Governor’s site return about 12,000 documents.

Masonboro Island Word of the Day - epimeletic. Bottlenose dolphins (and other cetaceans) have been known to demonstrate epimeletic behavior, meaning a care-giving act in which a healthy dolphin will support a sick one. Sadly, this behavior can also extend to a mother dolphin who will carry or hold a dead calf at the surface for hours or days.

Susan Rosenvinge Ahlberg oh Mike, that is sad.
March 25 at 1:30pm · Report

Nancy Manning They are amazing ... didn't know all of this. This makes me sad too. They're beautiful inside and out !!!
March 25 at 3:53pm · Report

Masonboro Island The first tiny signs of spring in the marsh - can you see the new green growth coming between last year's blades?

Masonboro Island Did you know you can get the meteorological data from the Masonboro station live on line? Check out the national NERRS site and select "North Carolina" from the "Real Time Monitoring Data". You can get the air temp, water temp, and wind speed.

Masonboro Island You can get wind direction, as well, you just have to go to the get data section and choose the research creek station and lookat current conditions - at the moment, it's west!

- Capturing and rendering tweets is easy
 - Links and retweets pose a bit more of a problem
 - We choose to include links (one hop off) and then manually assess the crawl results so that we don't harvest inappropriate sites in *future* crawls.
 - You only see the retweet, not the original
- VisitNCWine twitter crawl returns about 120 documents without the hop and 2000 with it

- Harvesting, but rendering problems abound
- Specifically, videos don't play unless you use a proxy site
 - Due to code running the page
 - CDL, the Library of Congress, Harvard, IA, and “other NDIIPP partners” will be meeting with YouTube representatives at the end of July to discuss.

A Whole Lotta Happy more

This link works!

Challenges remain

- “proxy mode” viewing
- Scoping the harvests
- Privacy settings/logins
- Capturing new/other social networking sites
- Maintaining list of active NC social networking site users
- Just when you think you’ve got it figured out, Mark Zuckerberg* goes and changes everything on you

**In this case, “Mark Zuckerberg” represents all social networking site admin.*

amy.rudersdorf@ncdcr.gov

Much credit for this presentation must be given to Jennifer Ricker & Kelly Eubank at the NC Department of Cultural Resources, and to Molly Bragg, formally of the Internet Archive, but currently enjoying the wonder that is Chapel Hill, NC.
